Look forward to an amazing experience!

We have come up with something very special for our presence at this year's BAUMA exhibition in Munich.

This year you can look forward to a unique and individualized trade fair container, which we are currently having converted in our typical SORB® style. It is already a real eye-catcher from the outside, but will be finished off with our SORB® logo. Now it's time for the next phase: the interior work - it remains exciting!

The container will not only become an showroom, but also an experience zone where you can enter the world of SORB® and its products in an exciting way. So stay tuned and follow the progress of the conversion in our upcoming newsletters and on **social media** - we'll keep you regularly up to date!

You're also welcome to meet us in person! From **April 7th to 13th, 2025**, you can visit us at **BAUMA in Munich** and get your own impression of our unique trade fair container at **stand 808 / 17**. We look forward to showing you everything!

We will also be exhibiting at other important trade fairs in the coming weeks:

cippe Beijing International Petroleum Exhibition

Beijing, China
Hall W2 - Stand W2206
March 26th - 28th, 2025

INTERSPILL

London
Stand C25
April 8th - 10th, 2025

Launch-Meeting “Maritime Special Solutions” goes into the next round! Join us!

Since our first meeting was so well received, we are pleased to offer you another exclusive launch meeting for our special maritime solutions.

Our expanded range includes solids containment systems, air booms, sludge and waste collection systems, various skimmers, intermediate tanks, storage options, as well as operational boats and ships. We are fully equipped to respond to oil spills.

Anyone who was unable to get a place at the first meeting will now have a second chance to attend our **meeting on April 3 at 12:00 pm**. Like our first launch meeting, this one will also be held in English and recorded by us.

An official invitation email will follow shortly.

Any questions?

Then get in touch with us or call us directly. We are happy to arrange an individual appointment on your site.
